

# Declared in conformity and here's the evidence!

Choose furniture in conformity with current standards and regulations. Backed by tests, the **NF Bureau Sécurité Confortique** [French Standards for the Safety and Comfort of Office Furniture] system provides objective evidence that the product meets all requirements and takes account of the criteria relevant to this specific use in terms of:

**> Safety > Solidity > Durability > Conformity to standards**

This gives you the additional certainty that the manufacturer can guarantee a constant level of quality for all furniture with the **NF Bureau Sécurité Confortique** label.

## Storage units

- > **Dimensions:** suitable for the different uses.
- > **Safety of use:** no burrs, edges or sharp points, no open profiles at extremities, no areas where pinching or shearing could occur during movement.
- > **Stability during use of empty or full units, doors open**
- > **Stability under stress or load**
- > **Resistance:** of the frame or (1,000 thrusts of 300 N at 1,600 mm from floor), of tops, of shelves (load 1.5kg/dm<sup>2</sup> for 7 days) and supports. Manoeuvre tests, opening and closing (40,000 cycles for horizontal sliding curtains) Resistance of drawers and extractable elements. Resistance of panels, wall fixings.
